

Copy a Confluence Space with Scriptrunner REST

The builtin Script "Copy Space" can be used with REST:

copySpace.sh

```
curl -u admin:Welcome1 -H "Content-Type: application/json" -H "X-Atlassian-Token: nocheck" -d @copySpace.json  
http://confluence.server.dk/rest/scriptrunner/latest/canned/com.onresolve.scriptrunner.canned.confluence.admin.  
CopySpace
```

The Json Payload:

copySpace.json

```
{"FIELD_SOURCE_SPACE_KEY":"TEST","FIELD_TARGET_SPACE_KEY":"TEST2","FIELD_TARGET_SPACE_NAME":"A copy of TEST",  
canned-script":"com.onresolve.scriptrunner.canned.confluence.admin.CopySpace"}
```

See the Jira Copy Project [here](#)
