

# Stylesheet

Found in Confluence Administration -> Look And Feel -> Stylesheet

Or in Browse -> Space Admin -> Look And Feel -> Stylesheet

The Stylesheet has a scope of the Space or Global, and can be used for CSS styling only, leaving out the <style> and </style> tags:

Edit

view plain print

```
01. .recently-updated-concise li.update-item:hover
02. {
03.   background: none;
04. }
05.
06. .page-metadata
07. {
08.   <!-- display:none; -->
09. }
10.
11. .recently-updated-concise h4.sub-heading
12. {
13.   display:none;
14. }
15.
16. .recently-updated-concise .update-item-desc, .recently-
17.   updated-concise .update-item-date, .recently-updated-
18.   concise .update-item-changes
19. {
20.   display:none;
21. }
22.
23. .more-link-container, .more-link-base
24. {
25.   display:none;
26. }
27.
28. .wiki-content a, .wiki-content a:link, .wiki-
29.   content a:visited
30. {
31.   text-decoration: none;
