

# User Macro: hide-for-anonymous

This hides the Tools menu and the "Spaces", "People", "Browse" Items:

<b>Name</b>	hide-for-anonymous
<b>Macro Body Processing</b>	No Macro Body
<b>Usage</b>	{hide-for-anonymous}

Closely related to the {hide-if} macro used in Customwares Visibility plugin - I Use is as this to hide the dtuff for Anonymous users:

```
{hide-if:match=all|group=confluence-users}  
{hide-for-anonymous}  
{hide-if}
```

## Code

```
## @noparams  
  
<style>  
.ajs-menu-bar {display:none;}  
a.aui-nav-imagelink {display:none;}  
a.aui-nav-imagelink {display:none;}  
a.aui-dropdown2-trigger {display:none;}  
</style>
```
