Exporting (wide) Tables better:

Font Size in Tables; - To reduce the font size in tables, add the following code to your CSS in the [Content Formatting](#) section:

```
div.tablewrap {  
  font-size: x-small !important;  
}
```

Use A4 Landscape

```
/* Generate border between header/footer and page content */  
@page {  
  size: A4 landscape;  
  border-top: 1px solid black;  
  border-bottom: 1px solid black;  
}
```
