

# User Macro: Tooltip

## Purpose

To render a small tooltip text - that can be seen if the mouse is hovered over the text

## Details

|                          |                                                                                                                                                                       |   |               |   |         |   |            |   |          |
