Copy a Gliffy

Requirement - at least **Gliffy 3.0**

Open the Gliffy Diagramme in Gliffy via Confluence
Click *File -> Export as Gliffy XML*
Save the diagramt (to an gxml file) on a drive

Start a new Gliffy Diagram via Confluence
Choose *Import a file as a template*
Browse to the gxml file
Click *Create Document*

And You have a new drawing ✅

As an alternative, You can reference the Gliffy from another page like this:

```
{gliffy:name=my diagram|space=ds|page=A great new way to share ideas|align=left|size=L}
```
